Stresses Need Of T. B. Care

Health League Members
Hear Talk by Dr.
R. G. Patterson

The need for a tuberculosis sani-
torium in Columbiana county was
pointed out by Dr. Robert G. Pat-
terson of Columbus, executive sec-
retary of the Ohio Public Health
League, in a talk at a dinner meet-
ing of the Columbiana County
Health League at the Wick hotel in
Lisbon last night.

Dr. Patterson, who also is pro-
fessor of social science at Ohio
State university, discussed ways and
means of establishing such a hospi-
tal and recommended either a three-
mill levy for one year, or a one-
mill levy for three years to raise
the necessary funds.

He said 150 cases of "T. B." were
known in the county and estimated
that there were at least 800 undis-
covered cases. He said a 65-bed
hospital would be needed.

Atty. S. W. Crawford, president
of the county league, named a
committee to confer with county
commissioners at an early date re-
garding the appointment of a di-
rector for tuberculosis work in the
county.

The committee includes Rev. R.
L. Martin of Salineville, W. A.
Shasteen of East Palestine, Glenn
Lewton and Atty. George L. Laf-
ferty of Lisbon and Delmar Serafy
of East Liverpool, league secretary.

Present at last night's meeting
were members of the health league
county nurses and guests.

Miss Addie Bonnell spoke on
"Women of the Church", citing
those who had been active in the
church within the last 50 years.

the Church", naming those promi-
nent in the church during the last

3,277 Are Employed By WPA in County

A total of 3,277 men and women
are employed on the WPA program
in Columbiana county, it was an-
nounced today by Fred L. Roose,
African district director.

constitutes 13 counties of north-
western Ohio, 53,662 men and
women are employed on the work
relief program.

The WPA program has two major
units, the operations division and
the women's and professional di-
vision. Approximately 3,075 men
are employed in the operations
unit, which includes all construction
projects.

The women's and professional di-
vision of WPA in Columbiana
county is employing 202 men and
women at the present time.

Hustone.

Czecho-Slovakia Gone--Here's What's Left

And Here Are The Men Who Sounded Its Death Knell

The second partition of Czecho-Slovakia leaves: (1) Czech "state" comprised of Bohemia-Moravia, a German protectorate; (2) Slovakia, also under German protection, and (3) Ruthenia (the Carpatho-Ukraine), threatened with annexation by Hungary.

Below—This International News radiophoto shows Hitler, right, and Dr. Joseph Tiso, deposed Slovak premier, in their momentous conference which resulted in the break-up of the republic of Czecho-Slovakia. At conclusion of the Hitler-Tiso discussion Slovakia was declared an independent state, supported by German arms, and Tiso the country's first "premier-president".

COUNTY ISSUES RELIEF FUNDS

ing \$18,214 Total for
The Month

LISBON, March 16.—County

\$8,172 to the sub-divisions to care
for relief clients during the last
half of the month.

The grant followed a \$10,214.50

first 15 days of the month and was
based on the same case load. The
money was secured from anticipa-
ted collections of beer, malt and
wheat revenue.

The source of matching funds
necessary to secure state relief aid
will be determined at a conference
to be held soon in which county au-
thorities and Norman Hirt, state
relief examiner, will participate. Of-
ficials were informed at Columbus
this week that the county will be
expected to raise matching money
before state funds will be availa-
ble.

628 of the total grant on a case load
of 497. Salem was allowed \$432 for
82 cases; East Palestine, \$666, and

SUIT PLANNED ON OVERCHARGE

Prosecutor May File For
Recovery of \$75,139
From State

LISBON, March 16.—Prosecutor
Karl Stouffer announced Wednes-
day he is considering filing a suit
for the recovery of \$75,139.01, said
to be an overcharge for the main-
tenance of Columbiana county fee-
ble minded patients at state insti-
tutions between 1925 and 1936.

A lengthy report secured by the
county commissioners and turned
over to the prosecutor places the
net cost of maintenance for the
period in question at \$131,538.35.
The amount charged to the county
for the period was \$206,677.36.

State Treasurer Clarence Knisely
and State Auditor Joseph Ferguson
will be named defendants if the suit
is filed. The prosecutor has written
Franklin county authorities for in-
formation on a similar situation
prevailing there and may base his
action on the outcome of a suit in
that county.

Figures used in the report were
furnished by the fiscal officer of
the department of public welfare.
The reports placed the average
maintenance rate per patient at
\$5.50 a week. The Columbus, Orient
and Apple Creek feeble minded in-
stitutions are involved in the dis-
pute.

Approximately a year ago the
county settled an \$80,000 bill for
the care of patients when the state
threatened to hold up relief funds if
the account was not settled.

ADOLF HITLER CITES LAW FOR NEW SUBJECTS

Lays Down Rules for An-
cient Lands of Bohemia
And Moravia

SLOVAKIA UNDER HIS 'PROTECTION'

Thus 2,450,000 More Cen-
tral Europeans Become
German-Ruled

(By Associated Press)

PRAGUE, March 16.—Adolf Hit-
ler, stretching the arms of his ex-
panding empire 200 miles farther
east, today laid down German law
for Bohemia-Moravia and agreed to
take Slovakia under his protection.

As German rule encompassed
those two parts of broken Czecho-
Slovakia, the third, Carpatho-
Ukraine, disappeared from the
European map by annexation to
Hungary.

In a decree issued from Hradecny
castle of Prague, the German chan-
cellor charted the future of the an-
cient lands of Bohemia and Mora-
via as that of "an autonomous pro-
tectorate" within greater Germany.

Didn't Wait Long

Hitler laid down the new funda-
mental law for the country of 7-
8,000,000 Czechs a day after he had
sped into the capital of the crushed
Czecho-Slovak federation behind the
wheels of his motorized army.

German protection of Slovakia
answered the appeal of Dr. Joseph
Tiso, who declared the independ-
ence from Prague of the little
country Tuesday under Hitler's
guidance and promise of support.

Thus 14,600 square miles and 2-
4,500,000 more of the population of
central Europe became German-
ruled.

The fuhrer acted barely two
hours after his foreign minister,
Joachim Von Ribbentrop, had
broadcast the decree for future rule
over Bohemia and Moravia.

Hitler trench fighting between
Hungarians moving across Car-
patho-Ukraine and Ukrainians,
meanwhile, left an estimated 100
dead and wounded in the eastern
end of the former Czecho-Slovak
state.

Augustin Volosin, former Car-
patho-Ukraine premier, who sent
his appeals too late to Chancellor
Hitler and Premier Mussolini of
Italy, the only men who might
have stayed Hungary's hand, fled to
Roumania.

A day before Hitler agreed to
make Slovakia's people subjects of
a German protectorate, his gray-
clad legions had entered their coun-
try just as they did Bohemia-Mora-
via.

Carry Out Same Duties

It was assumed that now they
would carry out the same duties in
the Slovak protectorate which Ger-
man forces have undertaken in Bo-
hemia-Moravia.

Almost at the same time as the
announcement that Slovakia would
be a German protectorate, Hitler
received Emil Hacha, former presi-
dent of dissolved Szecho-Slovakia,
at Hradecny castle.

Although Hitler's decree made all
the quarter million Germans within
the protectorate German citizens,
this was subject to the provisions
of the Nuremberg racial (anti-Jew-
ish) and other German laws. In
other words, German Jews can not
be citizens.

Salem Woman Hurt In Route 9 Accident

Mrs. Mary Kufleitner, 23, of R. D.
2, Salem was injured when the car
in which she was riding with her
husband, Mathew, 26, sideswiped a

miles south of Salem, at 8:15 p. m.
Wednesday and overturned.

She was taken to the Central
Clinic where she was treated for
lacerations of the head and right
knee.

The truck was operated by A. M.
Walton, 46, of Star route. Neither
driver was injured. State Patrol-
man D. H. Cole said.

Automobiles driven by J. R.
Moore, 31, of 1123 E. Ninth st., and
Morris Glenn, 35, of Canfield, fig-
ured in a collision on Route 625
near Canfield at 7:15 p. m. yester-
day. No one was injured. State Pa-
trolman James White said.

Leetonian Bruised In Auto Accident

LISBON, March 16.—Joseph
Wagenhouser of Leetonia escaped
with bruises when a county truck
he was driving left the road near
East Palestine Wednesday and
turned over.

Wagenhouser, employed by the
surplus commodity department, was
enroute to Lisbon when the steer-
ing gear locked as he was nego-
tiating a curve. The truck, empty
at the time, was badly damaged.

WHEN'S NEXT STRIKE DUE? EUROPE ASKS

Although Fuehrer Usually Permits Lull Be-
tween Successes, Diplomatic Circles See

Possibility of Reversal of Order
NOW HAS BOHEMIA, MORAVIA

Hungarian Forces, With German Acquies-
cence, Invade Carpatho-Ukraine and Es-
tablish Frontier With Poland

(By Associated Press)

BERLIN, March 16.—The chance that Adolf Hitler now
might strike swiftly to settle other unfinished Nazi business
in Europe was sighted today by foreign diplomatic circles.

Amid the reichsfuehrer's triumph in breaking up what
was left of the Czecho-Slovak republic after Munich, these
quarters discussed two dominant questions:

1. How soon would Hitler move to return Danzig and
Memelland to the lap of "Mother Germany?"

2. How quickly would Hitler follow up his regenerated
eastern push toward the dream of rich treasures in the
Ukraine?

Despite the fact that the fuhrer usually had permitted
a lull between successes, there was a chance now that he
might reverse the procedure and strike while the iron of an
empire-in-the-making was still hot—particularly in the case
of Danzig and Memel.

THREE SUCCESSES IN YEAR'S TIME

Hitler has spaced out his three
latest and greatest successes over
slightly more than a year—the an-
nexation of Austria, the absorption
of Czecho-Slovakia's Sudetenland,
and finally sponsorship of a new
Slovak state and a protectorate
over the Czech part of the former
Czecho-Slovak republic.

Today his armies were in con-
trol of Bohemia and Moravia and
on guard in Slovakia. Hungarian
forces, with apparent German ac-
quiescence, had marched across
Carpatho-Ukraine, the remaining
fragment of free Czecho-Slovakia.
Early today the Hungarians estab-
lished a common frontier with Po-
land.

Men who have studied the ways
of the Czechs' new protector have
always noted his disregard of con-
servative advice and how, despite
this, his hunches have worked.

LITTLE LITHUANIA IS NOT FEARED

Britain and France merely made
inquiries regarding Germany's an-
nexation of 7,000,000 Czechs in the
present instance so it was argued
that little Lithuania scarcely could
dare to challenge German "protec-
tion" for Memel.

It was problematical whether the
Poles strategically could prevent
German absorption of Danzig.
Legislatures in Danzig and Memel
already are Nazi-controlled.

Baron Col.-Gen. Werner Von
Fritsch, chief of the army, and
other carry-overs in the army
clique cautioned against a German
march into Austria for the an-
niversary of March 12, 1938, but when
Hitler and his troops entered the
occupation was a cinch.

Some observers were surprised
then that Hitler didn't follow
through by taking Sudetenland to
protect the 3,500,000 Sudeten Ger-
mans.

Hitler waited until the end of
September, however, before solidi-
fying his Sudetenland demands in
the Munich conference. Sudeten-
land was occupied in October.

Apparently the fear of a swift
follow-up in carrying out the "mis-
sion of the Reich in central Europe"
already was upon Polish official-
dom.

The chief of the Polish national
unity movement, Gen. Stanislas
Skwaczynski, yesterday stressed the
need of preparedness as a guaran-
tee of "our interests and rights."

REDS IN THE U. S.

There are in the United States, according to a spokesman for the Communist International, 90,000 party members—70,000 more than there were five years ago. The same spokesman claims each party member leads from 15 to 20 workers. This indicates a grand total of not more than 1,800,000 active Communists and sympathizers in the United States, the majority of them situated in the metropolitan area of New York City where they are swallowed up in a population of approximately 11,000,000 persons. Boo!

FULLER EXPLANATION

The abstract ideal of peace doesn't account satisfactorily for administrative insistence on a healing of the breach in organized labor. Neither is it explained by a desire to help business by avoiding jurisdictional disputes.

A fuller explanation is furnished by Louis Stark, labor news expert for The New York Times. "While peace is necessary for the New Deal in order to face the nation with a united labor movement in 1940, a divided labor movement would work to the advantage of the Republicans," observes Mr. Stark, reporting that labor leaders have been told by the President to settle their differences—or else.

While organized labor is divided, its votes will be divided. With this situation in mind, it may be a little easier to understand the significance of the success or failure, as the case may be, of the current labor peace conference.

TAILORS TOO?

Things must be bad in tailoring to prompt talk of abolishing hip pockets. Perhaps tailors want to hold their handkerchiefs in their hands and can keep their money these days in their watch pockets.

More likely, though, this is an offshoot of an era of reform. Tailors have looked around to see what they could make over too. A Michigan congressman, Rep. Hoffman, may have given them the idea by ordering a suit without side pockets in the trousers, to keep him from hiding his hands there.

But tailors, blessings on them, aren't easy to rush off their feet. A few here and there may drift into the lunatic fringe, but the majority will remember how men's suits were made 50 years ago and act accordingly. There still will be pockets galore even though a man may have nothing to put into them but loose buttons, nails, a lucky piece, and his hands.

NO HELP FROM THE PRESIDENT

Badgered congressmen will get no help from President Roosevelt in the relief appropriation dilemma. He thrust them into it; his latest statement on Tuesday, shows he intends to keep them there.

Besieged, in addition, by bombardments of correspondence from organizations allied with the President in the fight against saving \$150,000,000 this year at the expense of WPA, it will be a miracle if congressmen don't take the easy way out—surrender.

Mr. Roosevelt plainly intends to use his influence on the popular side—free spending. He tells congress it will be entirely at fault if the \$150,000,000 saving it tried to make in an \$875,000,000 request results in large numbers of beneficiaries being forced off relief rolls. He makes it clear he sees nothing to be gained, from his point of view, by trying to save money. He appeals to merchants and landlords to throw their influence against economy. He flatly denies there is any waste of money in WPA at the present. There will be no executive cooperation with the economy bloc.

The President's personal influence is great. It will be a miracle if economy-minded congressmen can withstand it. Yet, unless such a miracle occurs soon, another liberal government will have wrecked itself "on the rocks of a loose fiscal policy." That warning, uttered by Mr. Roosevelt, apparently has no meaning for him now.

DISILLUSIONMENT

Playing off racial minorities against one another has made the Balkans Europe's "seething cauldron" of politics.

Germany, currently tending the fire under that cauldron, currently is using the Slovaks to weaken the Czechs. That much is plain, even though the exact purpose of the move still is obscure.

It is worth noting, however, that Hungary and Poland also are affected. The first has utilized an opportunity to seize territory; the second has declared it wants no territory at the expense of the now completely helpless Czechoslovak state.

There is no reason, other than Germany's arrogant policy, for thinking the Nazis will be able to do in central Europe what no power or combination of powers ever has been able to do—establish political stability in the Balkans.

France, backed by the League of Nations, tried to do it in the post-war decade and failed. Germany's failure to do it before 1914 set the stage for the world's greatest war. It is today, as it has been in the past, a hopeless task.

To the extent that creation of a German empire depends on ability to reconcile the burning hatreds of Balkan minorities it is clear that Adolf Hitler is leading a great nation to a great disillusionment.

After scanning the frank and revealing photo of the bathing beauty who charges her promoter punched her, we wonder if there was a typographical error and that pinched was the word.

Who remembers when the United States Government was run for a year on what a house subcommittee now tops off a WPA request for funds?

THE STARS SAY:

For Friday, March 17

A DAY of very lively conditions, with much definite progress, is read from the predominant planetary influences. Much may be gained by steady and ambitious direction of the energies to high objectives, with merit and steadfastness receiving attention from those in power. However, there may be changes in plans and surroundings, and certain anxieties of a rather personal nature. These may pertain to social, romantic or sentimental associations.

Those whose birthday it is are confronted by a lively and progressive year, with the ambitions sustained by application, good judgment and the support of those in power, whose friendly interest is assured. Yet, there may be changes and in the private life some social, domestic or emotional concern.

A child born on this day may be versatile, industrious and ambitious, attracting the attention and solid support of elders and those in power. Its private affairs may be somewhat beclouded or subject to deception.

A LENTEN THOUGHT

By S. TALMAGE MAGANN,
President, Salem Ministerial Association.

SECURITY IN CHRIST

Read Hebrews 13:1-16

The president of an educational institution, which had a large endowment, mentioned the financial standing of his school in an inspirational talk to the student body. He revealed that the income of the institution had remained practically the same for many years. He emphasized the fact that the depression which followed 1929 had changed those figures very little.

The peace and security of this institution came as a result of the good work of the founders. The wise investment of the large endowment revealed great vigilance and forethought on their part. They had carefully considered the future as well as the present.

Each human being is confronted with the investment of his or her life. Many competitive interests clamor for it and make great promises for rich returns. The wise investor considers the future as well as the present for he is interested in returns which will continue.

Dissipation, vice, selfishness, and sin in its various forms, even at best, can pay dividends only for a short season.

A life invested in Christ has no chance for disappointing returns. He is "the same yesterday, and today, and forever." He is unchangeable in His Person, in His message, and in His power to save. He assures the dividends of triumphant life for the present and as for the future.

Prayer: We thank Thee, O God, for the unchangeable Christ: the Redeemer and Friend of all mankind. We rejoice in the security of all life invested in Him, Amen.

The outlines of that Roman conference are gradually beginning to emerge from obscurity. Mr. Chamberlain's idea, it seems, was to get together. It Duce just to get.

Many and Varied Remedies
Listed For Athlete's Foot

By LOGAN CLENDENING, M. D.

It is a generally recognized principle of treatment that when there are ten or 15 strongly recommended treatments for a disease, that is almost positive proof that none of them is really any good.

There is probably no ill to which flesh is heir which has had so many remedies suggested for it as the condition known as athlete's foot. This itchy, blistering eruption, which

occurs upon the feet of those both with and without physical prowess, is sometimes very easy to get rid of and sometimes very resistant to treatment. When one of your friends has cured himself in a day or two, he naturally feels that the treatment he has used will work for anyone, any time, and goes around touting it to all others afflicted. Sometimes it works and sometimes it doesn't.

List Is Long

Thus, the list of remedies used on this pesky thing is long; it includes iodine, mercurchrome, salicylic acid, gasoline, ammoniated mercury, formaldehyde, X-rays and other rays, and a few dozen other things.

The fact seems to be that the fungus which causes it has many varieties, and that which kills one variety does not do anything to the other. For that reason a comprehensive program, such as is issued by Dr. J. A. Mealy, of the Veterans Administration at Boston, is worthy repeating.

The first point to be stressed is absolute cleanliness. The feet should be entirely free from perspiration and extremely clean at all times. Soap and water should never be used, however; instead, warm olive oil is used to clean the feet. The patient should own ten pairs of cheap white, cotton socks and three pairs of shoes so that one pair can be worn for one day only.

The patient's feet are soaked for 20 minutes in a solution containing two tablespoons of sodium hyposulphite in two quarts of water.

Exposed to Rays

The feet are then thoroughly dried and exposed to the actinic rays for a period of five to seven minutes at a distance of about eighteen inches. While the feet are thus exposed, the toes are separated so that the rays can penetrate thoroughly into the spaces between and under them. After exposure to the actinic rays, the feet are thoroughly dusted with Epto powder and the patient instructed to put on clean socks.

Epto powder is a carefully-compounded semi-anhydrous dusting powder of desiccated sodium thiosulphate, enhanced by the synergistic action of thymol and an ac-

MEN LOVE
GIRLS WITH PEP

If you are peppy and full of fun, men will invite you to dance and parties. BUT if you are cross, listless and tired, men won't be interested. Men don't like "quiet" girls. When they go to parties they want girls along who are full of pep.

So in case you need a good general system tonic, remember for 3 generations one woman has told another how to go "smiling thru" with Lydia E. Pinkham's Vegetable Compound. It helps build up more physical resistance and thus aids in giving you more pep and lessens distress from female functional disorders. You'll find Pinkham's Compound WELL WORTH TRYING!

Officials Propose
Air Mail Service

WASHINGTON, March 16.—Post-office department officials said today they were "trying to figure out the best possible service at the most reasonable cost" for a star airmail route to serve Lake Erie points. They said airmail service would be established in July, but that it had not been determined what the service would be.

One proposal under consideration calls for operation of the route from Port Clinton, O., via Kelley's Island, Put-In-Bay airport, Middle Bass airport, to Isle St. George airport. An alternate proposal is for service from Sandusky, O., instead of Port Clinton.

A spokesman for the department said its field service had made an investigation and determined that there was need for air mail service to points on the island.

The present contractor, officials said, uses an airplane to make deliveries in the winter, although his contract calls for motor vehicle service. When new bids are invited, they will stipulate airplane service, instead of motor vehicle service.

YOU'LL ALWAYS

UNLESS—

You correct faulty living habits—unless liver bile flows freely every day into your intestines to help digest fatty foods and guard against constipation. SO USE COMMON SENSE! Drink more water, eat more fruit and vegetables. And if assistance is needed, take Dr. Edwards' Olive Tablets. They not only assure gentle yet thorough bowel movements but ALSO stimulate liver bile to help digest fatty foods. Olive Tablets, being purely vegetable, are harmless. Used successfully for over 20 years by Dr. F. M. Edwards in treating patients for constipation and sluggish liver bile, today Olive Tablets are justly FIRST choice of thousands of grateful users. Test their goodness TONIGHT! 15c, 30c, 60c. All druggists.

Officials said that inasmuch as airplane service will not start until July, it would be some time before they advertised for bids.

KIT CARSON—Avenger!

by EVELYN WELLS

SYNOPSIS

At 19, Christopher Carson—Kit Carson, as he would be known—found himself, with a price upon his head, in Taos, New Mexico, to which he had fled from Madison County, Kentucky, his birthplace. Apprehended by his mother to a sadder, Kit had run away, drifting into Taos over the Santa Fe trail in the spring of 1826. Three years later, he met Ewing Young, a captain of trappers, who was preparing to lead a party westward to California. Ostensibly the men sought vengeance against hostile Apaches. Actually they sought the contraband fur of the beaver. Kit convinces Young that he would be a valuable addition to the buckskin cavalade. And it is Kit who is first to sight, one May dawn two hundred of the befeathered Apaches, with faces painted for war, they round a distant mesa.

CHAPTER III

Kit was the only man who stood to fire. But he had used bow and arrow as a child in Kentucky and knew the savage arrows could not reach over the spur of mesa. So he stood slim as a reed on the sand calmly looking down his long rifle. He saw the Chief, his white feathered headdress floating above the callock, but Kit's narrowed eyes sought on a face that might have been raised from inferno.

Painted with the carmine stripes of war, tusks curled from his mouth, buffalo horns started from a low forehead, buffalo beard fringed the shaven skull. Around its throat were loops of human teeth. Around its painted waist scalps dangled. One clawlike hand shook a rattle made of skull.

"Medicine man!" muttered Kit, "I'm taking you."

He fired. He watched the grinning face go down under knife-like hooves.

At the same moment four other Indians fell under trapper fire. Their half-broken horses jerked from dying hands and fled over the dawn tinted desert. The Apaches pulled their horses back two hundred yards, out of rifle fire.

"They're turning," said Young. "Yet we only got five of 'em. Wonder why?"

"I shot their medicine man. They have to elect another before they can fight any more."

Young stared. It was Kit, youngest of his band, explaining. For himself, Young had selected the Chief, but the Chief, his feathered headdress floating amidst two hundred warriors, had been well beyond his fire. Young was being retailed this business of revenge by a beardless boy with a gentle girlish voice.

"When they elect the new man, Kit," he said respectfully, "you take him."

Then for an hour they waited with readied rifles. The sun riding over the cactus-broken desert grew fiercer. There was no water. In their sandy trap the trappers watched the savages circle with stamping feet in the scalp dance, offering the bloody trophies to earth and sky. Ceremoniously they selected a painted demon to serve as medicine man.

Then with quavering war whoops they again sprang to their horses, and shot for the mesa.

"Hui-eee!" Their scream quivered over the desert. Their finely made poisoned arrows whistled over the dune. One struck Captain Young on the shoulder, slanted from the buckskin and fell away. But he saw the slender, intent Kit standing to fire at the very heart of the new medicine man leading the charge.

"To have a son like that!" thought Young, clapping a hand to his bruised arm.

Not a trapper was wounded. Even more Indians were dead. This time the Apaches drew still farther away. Kit, watching, noted that this time they did not dance, toss sand to the four sky corners, offer their scalp trophies to the sun.

"They're not electing another," he said.

"Wonder why," remarked Young. "They think it's a sign. Two of their holy men are dead. Two is a holy number. They're afraid. See, they're going—not even trying to recue their dead."

"Safe enough to leave 'em with us," said Young. "We don't want scalps. You're right, Kit, they're riding off!"

But as he praised, Young was chagrined. After the Apaches had raced over the horizon and the trappers left their ambush and the dead warriors to the wolves, he rode thoughtfully.

The West recognized manhood. Young sensed the career of the young Kit Carson had begun. As for Kit, when they camped that night on the banks of the Gila river, he drove two more brass studs in his rifle stock—one for each medicine man. As he did so Young talked to his men.

"Part of our work is done. We've licked the Indians and now we can think of fur. Now, who's going with me?"

Some of the men looked doubtful. They spoke up.

"Plenty of beaver on the Gila. Why go on? There'll be trouble crossing the desert sure."

"Better beaver on beyond," tempted Young. "In California."

"There's more than fur in California," said Valliant, the French Canadian, ominously. "The Mexican California and don't want trappers."

The Mexican New Mexico too and all the Southwest," declared Young; "they can't keep me from fur and they can't keep me from California."

He knew the boy Kit would be with him. Sixteen more accepted the dare. The others left them to set their traps on the Gila, that long romantic river so rich with beaver it was called the trappers' paradise.

Young could look with pride on his band. The strong, the intrepid, the finest hunters, had chosen to

join him on the dangerous trail to unknown California.

Before them lay more than a hundred miles of waterless desolation.

"We must carry meat and water," ordered Young.

The trappers set out in various directions. But only three deer were killed. The hides were removed and filled with the brackish Gila water. The flesh was dried in the sun. The Indians called these long stiff strips of flesh—pemmican.

At last they were ready for California. Slowly, not to weary the horses, they went toward the Colorado river. They were the first Americans to cross this lonely desert and the first white men since Garcas toiled over it in 1776.

They were the trail breakers to the Pacific.

June passed. July came. They were the ants toiling in endless ruin. The horrible water was gone. Weakened men fought staggering horses to prevent their eating the deadly cactus. The horses died, falling with swollen tongues oozing in the dust under the scariet sky.

To live—the men opened veins of the surviving horses, drank, closed them again.

As they lead the living skeletons that were horses, they staggered like dying men. Their swollen throats could not permit speech. Their eyes started red from skull-like faces. Kit's boyish look was gone, his hair long and matted; he looked like an old man, dying.

"Mirage tormented them. Water seemed to lap at their feet. When at last they saw the Colorado in its muddy cleft they stared stupidly, disbelieving. Then meaning they stumbled to it, drank, wept, prayed a little, became again living men."

They made rafts and ferried the horses over the turbulent river. On the other side, Young said simply, "We've reached California." Kit remembered the hardships, the horror. He said, "A thousand miles we've come—for fur."

At last the great West had been opened in the hunt for fur. Later the glint of gold would lure men. Now it was the shining brown pelt of beaver in western rivers. Only three other white men had penetrated California overland from the east: Jedediah Smith in 1826, and the Petties, father and son, in 1828—three trappers following the beaver trail. Beaver had brought the mountain men from Taos.

And beaver led them on avoiding the twenty-one rich missions of pastoral California, blossoming in beauty and wealth, rich with oil and wine, pastures and cattle... over naked brown hills and warm valleys, into the wide empty plain of the Sacramento.

On this river's edge they built deer-skin tepees and trapped for the many beaver. This great empty valley was elysium—ten years before Sutter came. Tales told later by Kit Carson would bring Captain John A. Sutter to build his principality in the Sacramento. The trapper had heard of this paradise

lush with salmon, deer and antelope, otter and beaver and bear from the Mojave Indians of southern California.

There were not fifty "foreigners" in California in 1830 and the Americans could not hope to escape the attention of Mexican authority. But it was Kit who gave their hiding place away.

Kit loved California. He would know it as no man before him—perhaps none after. He would return to its wide and rich loneliness, long after the deer and antelope and beaver had vanished from the banks of the Sacramento.

Twenty and ardent, in this flowing wilderness, Kit Carson found love.

Her name—Teresita. Her age—fifteen.

WHY TAKE CHANCES WITH HEAD COLDS?

If you feel a head cold coming on—take no chances—call a doctor at once. He will probably suggest a light liquid diet and put you to bed. Only Nature can cure a cold and you can help Nature best by getting plenty of rest.

To rest comfortably, you should be able to breathe freely thru your nose. Here's a simple thing that will help ease your breathing and thus promote restful sleep. If your nose is stopped up with mucus, due to a cold, get a jar or tube of Mentholatum at any drug store. Put some in each nostril and sniff it up as far as you can. Mentholatum is a mild, cooling ointment containing menthol, camphor and soothing oils. It stays put in your nose and gives off clearing vapors for hours. This action helps to open up your breathing passages and soothes the rawness inside your nose. If your cold is "farther down," rub a liberal quantity on neck, throat and chest.

Remember, don't take chances with head colds—call a doctor at once. Then get some Mentholatum to help relieve head cold miseries. Used by millions for over 40 years. In jars and tubes, at all druggists—only 30c.

REJECTION SEEN FOR PROBE PLAN

Ohio Senate Rules Committee Studies "Un-Americanism"

COLUMBUS, March 16.—Ohio senate rules committee members probably will reject, it was learned from an authoritative source today, demands for a legislative investigation into asserted un-Americanism activities in state universities and in the state generally.

The committee virtually has reached an agreement that it will go no further, this source asserted, than to set up a committee for "observing" whether charges by the "Ohio Council of Civic, Patriotic and Fraternal Organizations" warranted an investigation.

There was a possibility, reliable reports indicated, that the senate might suggest that Rep. Martin Dies' congressional investigating committee come to Ohio and hear evidence on the charges.

The rules committee heard from the group asking a legislative investigation that un-American doctrines were being taught freely in universities and public schools and that subversive activities threaten the state's welfare.

The startled judge ordered Eckert's name stricken from the verdict.

BACKACHE, LEG PAINS MAY BE DANGER SIGN
Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day of about 3 pounds of waste.

Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness.

Don't wait. Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

DEATHS

HOMER HALVERSTADT

Word has been received by relatives here of the death of Homer Halverstadt, 79, native of Leontonia, and former Salem resident, at the home of his son, near Youngstown, at 4:40 p. m. Wednesday following a long illness.

Mr. Halverstadt, one of 13 children, was born Sept. 5, 1859, on the old Halverstadt family homestead near Leontonia. He had lived in Salem for 19 years. He was a member of Trinity Lutheran church here. His wife, Sadie, died four years ago. He leaves another son, Merle, of Salem; seven grandchildren; two brothers, Jonas of Leontonia and Emmor of Lisbon.

Funeral service will be held at 2:30 p. m. Saturday in the Stark Memorial, in charge of Rev. G. D. Keister, pastor of the English Lutheran church. Burial will be in Grandview cemetery.

Friends may call at the Memorial Friday evening.

Akron Man Denies \$8,000 Embezzlement

RAVENNA, March 16.—R. H. Reiter, president of the Reiter Dairy Co. of Akron, was held on \$2,000 bail here today pending trial on a charge that he embezzled \$8,000 in insurance money from a former Ravenna widow, Mrs. Louise Reed of Irvington, N. J.

Prosecutor Theodore Tilden said that Reiter, who was secretly indicted by a Portage county grand jury Sept. 21, 1938, administered the estate of Mrs. Reed's husband, Alfred, who was killed when the horse he was riding was struck by a traction car near here in 1920.

Mrs. Reed was quoted by officials as saying that of \$11,000 in insurance paid to her husband's estate she has received only \$3,000 in small installments from the Akron man.

BYRD DEMANDS STIFF ECONOMY

Will Offer Amendment to House-Approved Measure Soon

(By Associated Press)

WASHINGTON, March 16.—Senator Byrd (D., Va.) demanded today that the government reorganization bill be fashioned into a two-edged weapon for cutting federal expenditures as well as inefficiency. Shortly before the house-approved measure was brought up for debate in the senate, Byrd declared he would offer some "strong economy amendments."

"They would provide for retrenchment wherever possible," he said, "as a way to start cutting federal expenditures in the interest of a balanced budget."

Overshadowed FDR Request
The reorganization debate appeared likely to overshadow for the present the controversy over another question of federal pending—President Roosevelt's request for a \$150,000,000 emergency relief fund.

His recommendation, once turned down by congress, is pending before a house sub-committee, which called WPA Administrator F. C. Harrington back to the capitol today for further examination on relief needs.

Advocates of the Byrd proposals expressed the belief they would give the senate economy bloc a rallying point at a time when many members are talking about cutting expenditures as a means of inspiring business confidence.

Byrd's proposals were expected to draw the fire of administration leaders, whose emphasis throughout the long battle over reorganization has been primarily on increasing the efficiency of federal bureaus. Supporters of the bill, however, argue that government reorganization inevitably would bring some savings.

Major Argument
Some senators declared the major argument probably would be over a proposal by Senator Wheeler (D., Mont.) that congress retain the final word on all reorganization. In its present form, the bill would permit an order to become effective in 60 days unless both houses of congress adopted a nullifying resolution.

Wheeler would require that congress act, either affirmatively or negatively, on every order within 20 days.

As for the relief bill, administration forces hope to bring it before the house next week, although Rep. Woodrum (D., Va.), leader of the house economy bloc, said several more days would be required for sub-committee hearings. Woodrum opposes the new appropriation.

Theatre Attractions

Rustling in the modern, streamlined manner, with refrigerated trucks, portable slaughter equipment, etc., is portrayed in "Red River Range," which shows Friday and Saturday at the Grand, with the "Three Mesquiteers" in the lead. John Wayne, Ray Corrigan and Max Terhune again demonstrate that courage, in a rugged, out-of-door setting and story, entertains the typical American audience.

War On Rustlers

The story deals with the exciting adventures of the Three Mesquiteers in their efforts to rid Red River county of cattle rustlers. Appointed special deputies by the governor, they arrive on the Red River range in time to discover that they have been preceded by an old pal, Tex Reilly, on a similar mission. Because Tex's identity is known to the rustlers a scheme is cooked up whereby Stony Brooke (John Wayne) vanishes and Tex assumes his identity as the third mesquiteer.

Stony improves his time while he is temporarily banished from the Mesquiteers. He has himself photographed, convict style, and causes circulars to be distributed presenting him as a dangerous escaped felon, "Killer Madigan". This is a decoy to lure the rustlers into betraying themselves to him, which they do in a novel manner.

Lorna Gray provides the romantic interest for the trio. Polly Moran, the beloved comedian, handles her supporting role with finesse. Other supporting players include Kirby Grant, Sammy McKim, Burt Carruth, Roger Williams, Perry Ivins, Stanley Blystone and Earl Askam.

Naval Air Story

The story of the United States naval air force is dramatically told in the film, "Wings of the Navy" which will be seen at the State tonight, Friday and Saturday.

Olivia De Havilland has the feminine lead while George Brent and John Payne are cast as brothers, one a navy flying instructor who develops a new type of plane and then is injured in a crash before he can bring his plane to the attention of officials. With his brother injured, the younger one at-

tempts to test the plane to attract the attention of Washington officials.

OHIO CAGE TOURNEY FINALS UNDER WAY TODAY

MISS PAULINE COPS LEAD IN SINGLES PLAY

Takes Over First Place In Individual Event of Bowling Meet

Taking a 27-pin handicap on top of a 479 series, Miss Helen Pauline moved into the lead in the singles event of the annual Masonic Ladies league handicap tenpin tournament at the Masonic temple alleys last night.

Miss Pauline's 506 total was 16 pins better than the second highest score of 490 turned in by Mrs. Frieda Orr, who ranks as the only "scratch" bowler in the tournament.

In taking over the top position, Miss Pauline rolled games of 147, 154 and 178. Mrs. Orr had a better series, putting together games of 157, 188 and 145, but lack of a handicap prevented her from topping Miss Pauline.

Mrs. Orr's average of 150 is the highest in the ladies league, requiring her to bowl in the tournament from "scratch". The "Scratch" figure, upon which handicaps are based, is 150.

Tie For Third

Trailing Miss Pauline and Mrs. Orr on the first night of the singles competition was Miss Olive Ramsey and Miss Ethel Shears, who chalked up scores of 472 to tie for third position. Miss Ramsey combined games of 162, 151 and 153 with a 6-pin handicap for her 472 count, while Miss Shears hit 472 on games of 146, 91 and 136, plus a 99-pin handicap.

Fifth high for the first night was Mrs. Stella Harroff, who added a 37-pin handicap to a 410 series for a 467 total. Mrs. Harroff had games of 135, 127 and 148.

The singles action will continue Saturday to bring the tournament to a close. The team and doubles events were run off last week. Scores of last night's session follow:

STENGEL MAKES MIGHTY EFFORT TO BOOST BEES

Attempts to Dig Up Batting Strength For Boston Club

By GAYLE TALBOT.
BRADENTON, Fla., March 16.—Casey Stengel of the Boston Bees is making a nervous fight against time—trying to dig up some batting strength before the years finally claim one of the best pitching staffs in either league.

For a couple of seasons now the Bees have had truly phenomenal pitching and fielding, but all it got them last year was fifth place in the National league's hot race. They couldn't hit. They had only one player, Debs Garms, who topped 300.

Perhaps the best picture of the club is afforded by the fact that they won more home games than any team in their league. Their park is a spacious affair with a prevailing wind in the batter's face. Rival teams even claimed the Bees' groundkeeper let the grass grow long in order to slow up the ball.

Received Support
There the Bees were well nigh unbeatable. Their veteran pitchers, Lou Fette, Danny MacFayden, Milburn Shoffner and Jim Turner, never asked for more than two or three runs, and their support afield was admirable. But when the Bees went visiting, where home runs and triples came cheaper, their failure to hit made them a soft touch.

Well, Stengel is making a heroic effort to remedy the situation before it's too late. He's loaded his training camp here with men and boys who either have proved they can hit big league pitching or who look as if they might. He's even grabbed the one great Al Simmons in the fervent hope that Al has a few more booming drives left in his bones.

You see, Fette, MacFayden and Turner are all 32 years old, and Shoffner is 33. That's getting old for a pitcher, and they showed signs of beginning to crack last year. But he's praying this gray-beard quartet can cut the mustard just once more and he's guaranteeing them he will give them a few more runs to work on if he has to get out there and bat himself.

Specifically, Casey is planting on third base one Johnny (Power) Hill, who, with Atlanta last year, hit .338 and led the Southern association. I watched him hit, and he looks very good, indeed.

Retain Warbler
At shortstop, replacing Rabbit Warbler, who knows of a basehit only by hearsay, he is installing Ed Miller, who clouted 290 with Kansas City and is a polished performer in every respect. Warbler will be retained as utility infielder.

At first base when the season begins, no doubt, will be Buddy Hassett, the sweet singer and capable hitter acquired from Brooklyn.

Tony Cuccinello will be kept at second to hold this new interworking together, despite his 265 sticking mark last year. Stengel is too smart to wreck completely his grand defense.

Simmons, waived out of the American league during the winter, is a cinch to share the outfield with Garmis. Jim Outlaw, who hit .339 for Syracuse; Ralph McLeod, who slammed 331 for Hartford, and Ralph Hodgins, recommended by a 323 mark with Evansville, are chief aspirants for the third fly-chasing job. Stengel finally gave up on Vincent DiMaggio, brother of the Yankees' famous Joe, and shipped him back to the minors.

Al Todd, 1938 Pittsburgh catcher, has been obtained to help out Al Lopez with the catching.

All in all, Stengel probably will have a better club, and he certainly will if Simmons hits for him. But I can't see the Bees climbing into the first division, because it's already crowded.

Breezy Briets Of Sport From Various Spots

By EDDIE BRIETZ.

NEW YORK, March 16.—Tip department: Henry Armstrong will hang up the mittens at the close of business this year. Stanford and Illinois now are tagged as 1940 possibilities for Doc Sutherland.

Unless the P. G. A. brass hats change their minds neither Pinehurst nor San Francisco will get the Ryder cup matches. . . . If the New York comrades should decide El Galento is physically unfit Mike Jacobs will take the June swat extravaganza to Philadelphia.

Boxer Missing

The S. O. S. is out for Jack Patton, one of Jack Roper's sparring partners, who has disappeared from camp. . . . You don't reckon Jack was afraid he'd be arrested as an accessory before the fact, do you?

Mike Jacobs and Jimmy Johnston, who barely speak, had to sit together at the Golden Gloves the other night. . . . His friends won't be surprised if Willie Turnesa, national amateur golf champ, bobs up in the movies one of these days.

Buddy Baer's ambush was to be a plumber, but by the time he learned which tool to use for what, he had grown too big to get under a sink. . . . They made it very plain on the Glenn Cunningham broadcast Tuesday night that Glenn had received no expense money for telling the boys he got his biggest thrill galloping the mile in 4:04.4.

Miklos Szabo, the Hungarian two-mile star, who failed in all his starts here, has given up and gone home. Only he says it was the cigar smoke and not the dust which got him. . . . Tulsa U. rooters want to know why Oklahoma doesn't give Tulsa that open Dec. 2 football date. . . . The first stop on Tony Galento's personal appearance tour will be at the office of the N. Y. boxing commission next Tuesday.

Laughed Off

Cawthon Bowen and Roland Hughes of the Roanoke Times and World-News are here for the basketball tournament. . . . They report what was left of the more or less famous Graham plan was laughed off the Southern conference books at the last meeting. . . . Ancil Hoffman, manager of Max Baer, has been under a physician's care at Sacramento.

The Red Sox are supposed to have more wives in camp than any other big league club and the Boston scribes to a man report the members of the ladies' auxiliary are very easy on the peeper.

Season Month Away, Holdouts Now Have Several Major League Magnates Worried

By JUDSON BAILEY

NEW YORK, March 16.—Some of those holdouts which were laughing water to the major league magnates whenever mentioned during the winter are bitter draughts now that the season is just a month away.

The roll of unsatisfied and unsigned performers includes Red Rolfe of the World Champion New York Yankees; Joe Medwick of the St. Louis Cardinals; Bill Werber of the Philadelphia Athletics; Paul Waner of the Pittsburgh Pirates; and sizable segments of the Cleveland Indians and St. Louis Browns. The Indians alone have pitchers Willis Hudlin and Johnny Broaca, outfielder Earl Averill and shortstop Lyn Lary still outside the tepee while the Browns' dissenters number Buck Newson, Don Heffner and Ralph (Red) Kress.

A lot of hopes and a lot of money are bound up in this bundle of ball players and it requires no mental exercise to vision the half dozen club owners concerned doing rapid calculation within the next few days to reach a settlement.

The venerable Connie Mack, who believes he has uncovered a comer in Joe Gantenbein at third base, yesterday called for waivers on Werber, who has been knocking around in the American league for some six seasons.

Ed Barrow, president of the Yankees, was quoted in St. Petersburg, Fla., to the effect that he was through giving voluntary raises to his players because they weren't appreciated and too frequently tried to stretch a mile into a light year

weekend with Mr. and Mrs. H. O. Wilson.

Return From Florida

Mr. and Mrs. A. B. Betz have returned from Florida.

Mr. and Mrs. Raymond Sinclair of Cadiz visited Sunday with Mrs. Flora Taylor.

Mr. and Mrs. Steve Sepidel of Massillon were Saturday callers here.

Miss Lenora Hyatt of East Liverpool visited her parents, Mr. and Mrs. W. G. Hyatt, over the weekend.

Mrs. U. Bacody of Youngstown visited Thursday with Mrs. Flora Bush.

—anyway that was the idea. He was referring to Rolfe, who was offered a boost from \$13,500 to \$15,000. Rolfe hit 311 last year and was chosen by baseball writers during the winter as the big top's outstanding third baseman.

Muscles Medwick has been offered \$17,500 by the Cardinals and is asking \$20,000 while the only other National league holdout, Paul Waner, was cut from \$17,500 to \$12,000.

All for Nothing

NASHVILLE, Tenn.—When they couldn't open the rear door of a patrol wagon in which another officer and a drunken prisoner arrived at police station, two officers went to work with a crowbar, a hammer and a screwdriver.

They got the door off at the hinges—then found that the door latch worked perfectly from the inside.

SUFFER FROM NERVES?

Terre Haute, Ind. — Mrs. Jessie Dunsberry Berwick, 1607 Wilson St., says: "Some years ago I was very thin, had hardly any strength, and was terribly nervous. ADVERTISING MEN CALL THIS AN "INSTITUTIONAL" AD!

We don't know much about Advertising. But we do know that customer confidence is mighty important in our business.

Take women for instance. We're especially helpful to them. Things like looking after the tires, suggesting how to start in cold weather, even how to stop and shift gears properly!

Seems like we've made a hit, too, for more and more women are depending on us to keep their cars in top mechanical condition for worry-free motoring.

Now we didn't start out to write an "institutional" ad. But we believe that every driver has something to gain by stopping here—and we said so!

Built for ACTION-PRICED the same way!

The model illustrated is the Buick Special model 41 four-door touring sedan \$990 delivered at Flint, Mich.

\$894 and up

delivered at Flint, Mich. *Subject to change without notice. Transportation, state and local taxes (if any), optional equipment and accessories—extra.

FIRST time we saw the blueprints for this Buick thirty-niner we knew we had something pretty special for folks who like action in their travels.

It had eight eager cylinders in a mighty Dynaflex engine—and they could make a scared jack rabbit eat dust whenever the word was given!

It had a ride we promptly dubbed "full float"—its stout coiled springs are now 15% softer in the rear, and hooked up, in front, with Kneec-Action that banks curves for you.

It had a view, a gorgeous view, from windows and windshields as much as 412 square inches bigger—and it had style that has already altered the pattern on many another car-stylist's drawing board.

So we looked it all over—and went a step further. We decided a car so plainly meant for action needed to have a price that would get action for it!

Now it isn't easy to build such a traveler—rich in reliable Buick quality clear down to the metals it's made of—and still give it a price that rubs elbows with the sixes.

But just look

around, match up the price tags, and you'll find that this great straight-eight lists for less than some cars with two fewer cylinders!

It comes complete with equipment that's extra in many another instance—yet the figures still read lower than on Buick of a year ago.

So when you see this Buick you not only see the car, but the one big value of the year. That's why we're anxious to have you try Buick—it's a car with a winning way about it, and a winning price tag in the bargain!

NO OTHER CAR IN THE WORLD HAS ALL THESE FEATURES

* DYNAFLEX VALVE-IN-HEAD STRAIGHT-EIGHT ENGINE * BUICK TORQUE-FREE SPRINGING * GREATER VIBRANCY * HANDSHIFTS * TRANSMISSION * ROOMIER UNSTEEL BODY BY FISHER * TORQUE-TUBE DRIVE * TIPTOE HYDRAULIC BRAKES * CROWN SPRING CLUTCH * "CATWALK-COOLING" * OPTIONAL REAR AXLE GEAR RATIOS * FLASH-WAY DIRECTION SIGNAL * SELF-BANKING KNEE-ACTION FRONT SPRINGING
